Monitoring of Temp., Humidity & Many Other Measurements

Ambetronics measurement system for monitoring of Temperature, Humidity and other measurements assures that perishable goods are produced and stored at the right conditions at all times. Other measurements like Co2, Ethylene, Ammonia etc. can be integrated.

Continuous Monitoring
Of all areas where Food, Pharmaceutical and Medical Products are produced and stored.

Avoid loss of goods
With the continuous monitoring of all crucial temperature points - 24 hours on 365 days a year.

Easy Handling
Saves time, efforts and energy.

Automatic Reporting
Through automatic recording, storage and reporting of the measured data. Problems can easily be traced and audit reports can be generated instantly.

Quick intervention before it is too late
With a very wide and flexible alarm management (notification via email, SMS / Voice Call or acoustical.)

World wide access
Via internet - at any time, any place and any PC with internet and network access.
Security is ensured using a login and password.

Documentation as per GMP & GLP Guidelines
- DQ - Design Qualification
- IQ - Installation Qualification
- OQ & PQ - Operational & Performance Qualification
- SOP - Standard Operating Procedure

COLD CHAIN MONITORING SOLUTION

Your Partner for Cold Chain Management
We Measure, We Record, We Report!
Cold Chain Solution for Transport

External Probe USB Data Logger
- Range: -30°C to 60°C
- Report: PDF
- Memory: up to 1,20,000

Single Use Temp. Data Logger
- Range: -30°C to 70°C
- Report: PDF/
- Memory: up to 1,20,000

Temp. RH Logger
- Range: -30°C to 70°C
- Report: PDF
- Memory: up to 40,000

Single Use Logger for Dry Ice
- Range: -85°C to 50°C
- Report: PDF/
- Memory: up to 20,000

Cold Chain Logger
- Range: -30°C to 70°C
- Report: PDF
- Memory: 7,000

Continuous Warehouse Monitoring System

Wired System for Warehouse
- Buzzer
- Remote Alarm System
- SMS & Email Alert
- Local Alarm Panel
- Data Logger
- Temperature Sensor
- Realtime Monitoring at Head Office
- Cloud Network
- Report Generation
- 21CFR- Part -11 Compliance
- Smart Log Software

Wireless System for Warehouse
- Base Station Receiver
- Wireless Temp./Humidity Measurement
- USB/LAN Network
- Floor Plan with overview of all measurements
